Igniting Curious Minds: The Middle Stage

Launch Your Future

Seamless Transition, Strong Foundation

Holistic Learning

Our middle stage offers a broad curriculum with subjects like English, math and science, preparing your child for the next stage of education while fostering creativity, expression, and well-being.

Building success one step at a time:

We go beyond rote memorization. Students actively engage with the material, developing critical thinking skills and a deeper understanding of concepts.

Seeing the bigger picture

We nurture responsible global citizens who understand the interconnectedness of our planet and their role in creating a more sustainable future.

OUR FOCUS AREA

1

2

3

4

Synchronized Approach, Insights Driven Assessments

Unlocking Potential: Through MidYIS assessments, teachers gain valuable insights into your child's unique learning profile, helping them unlock their full potential.

Celebrating Strengths, Building Skills: Classroom assessments and collaborative discussions with your child, focusing on their achievements.

Guiding Growth, Not Just Grades: More than scores, Progression Tests guide teachers to your child's strengths and areas for growth throughout the year.

Recognition & Results: Your child receives an achievement statement, while you will get detailed feedback on their performance.

1

Connected Learning: We emphasize the collaborative and networked nature of learning

Global Impact: We highlight the broader significance of the education provided.

2

3

Vibrant Learning Community: We create a more engaging school network.

Shaping Knowledge, Skills, and Confidence: We provide a concise learning summary.

4

5

Making a Positive Impact: We connect the education to future success and global citizenship.

Building Confidence in a Connected World
